INSTRUCTIONS

This form should be used to provide supporting information on Domestic geographic name proposals. Names should be reported when more than one name is given to a feature by local inhabitants, and/or on official maps, or in reports of Federal, State, and county agencies; also if there is disagreement as to the extent of the feature or the application of the name. A full statement covering the field investigation of each name is required in order that adequate evidence may be submitted in proper form to the Board on Geographic Names for decision on the following:

1. Names that have more than one local spelling.
2. Names where local spelling differs from that shown on previously published maps or reports.
3. Conflicting name usage due to change in property ownership.
4. Conflicting published names in sparsely settled areas where local usage cannot be determined.
5. New names, that is, recently assigned or proposed names for features previously unnamed. (Use Board on Geographic Names form, Proposal of Name for an Unnamed Domestic Feature.)

Established names in local use, even if previously unpublished, are not considered new names. If spelling, application, and extent of use are undisputed, a name may be accepted for publication without submitting it to the Board on Geographic Names for approval.
